REGGIE S.

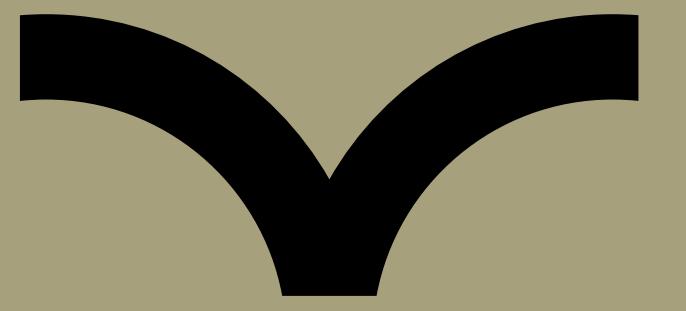

Reggie S. (Regina Speights,) is a Georgia-based artist whose work emphasizes the beauty of abstracts, liquid and sketch art, and more. With an engaging style, her pieces often compliment one another, unveiling a unique body of work that serves to captivate the viewer's intellect and spirit. Reggie takes a subtle approach to the visual appeal of abstraction, often adding fluidity and movement to her art. Her approach allows her to explore and investigate the boundaries between sketch art, modern abstracts and liquid art. Overall, Reggie's works offer a refreshing view of what modern art can create.Inspired by Reggie's creative juices, her husband, known to his friends as "Jae Di" (pronounced J. D.) has been convinced to post some of the fruits of his life long love of Photography. Mostly drawn to shots of nature, Jae Di has started to expand into other areas of photography and is anxious to share the results with the world.

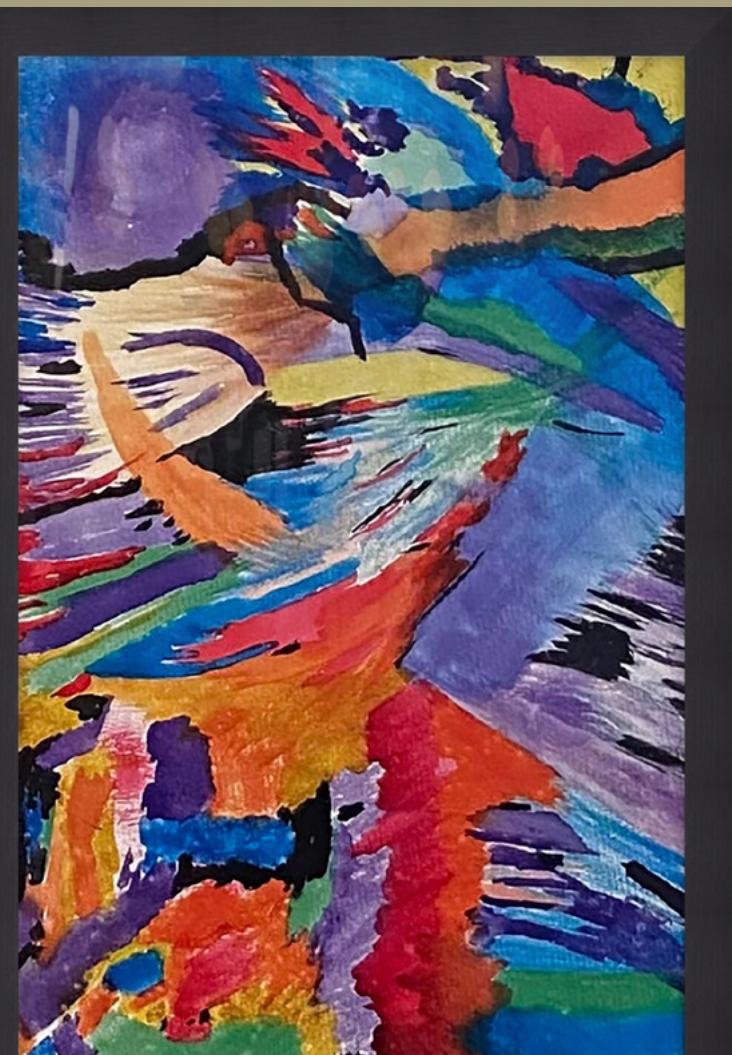

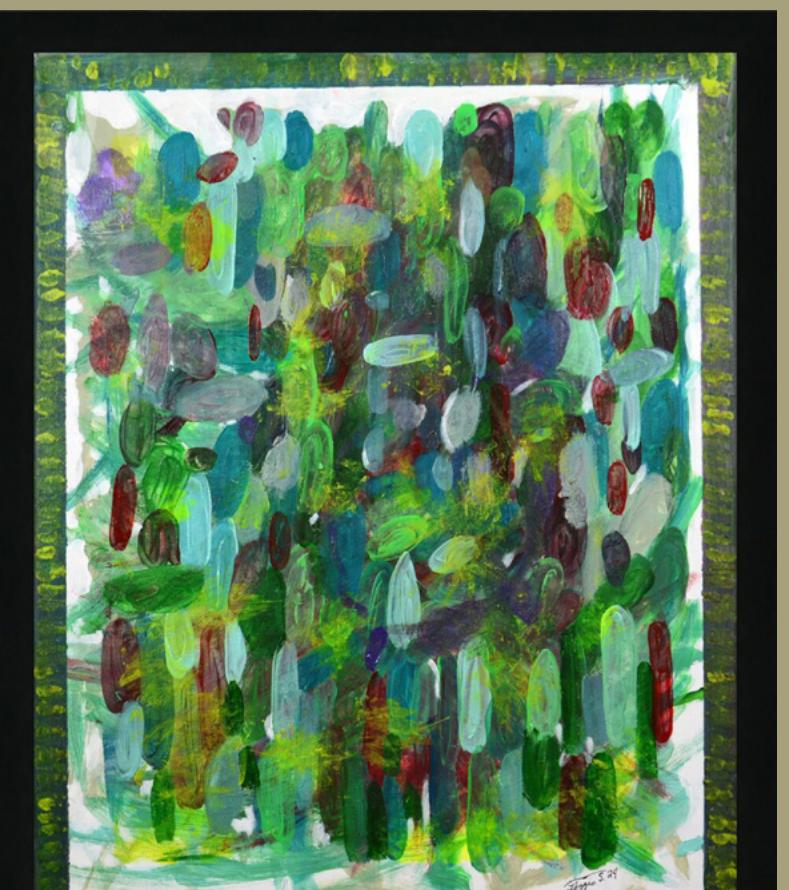

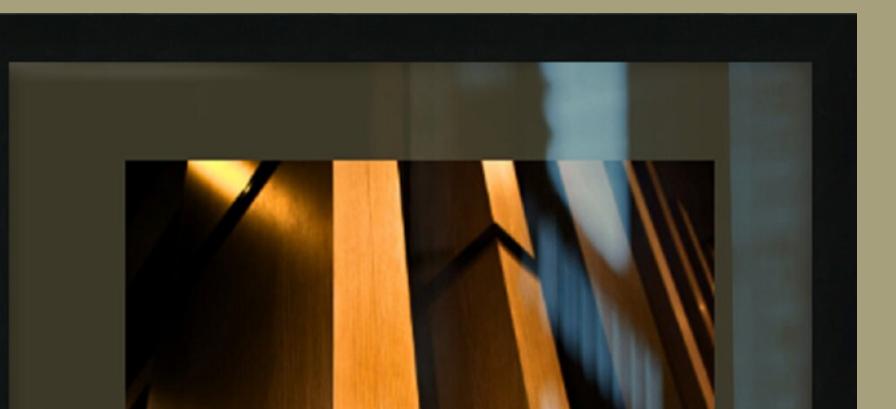

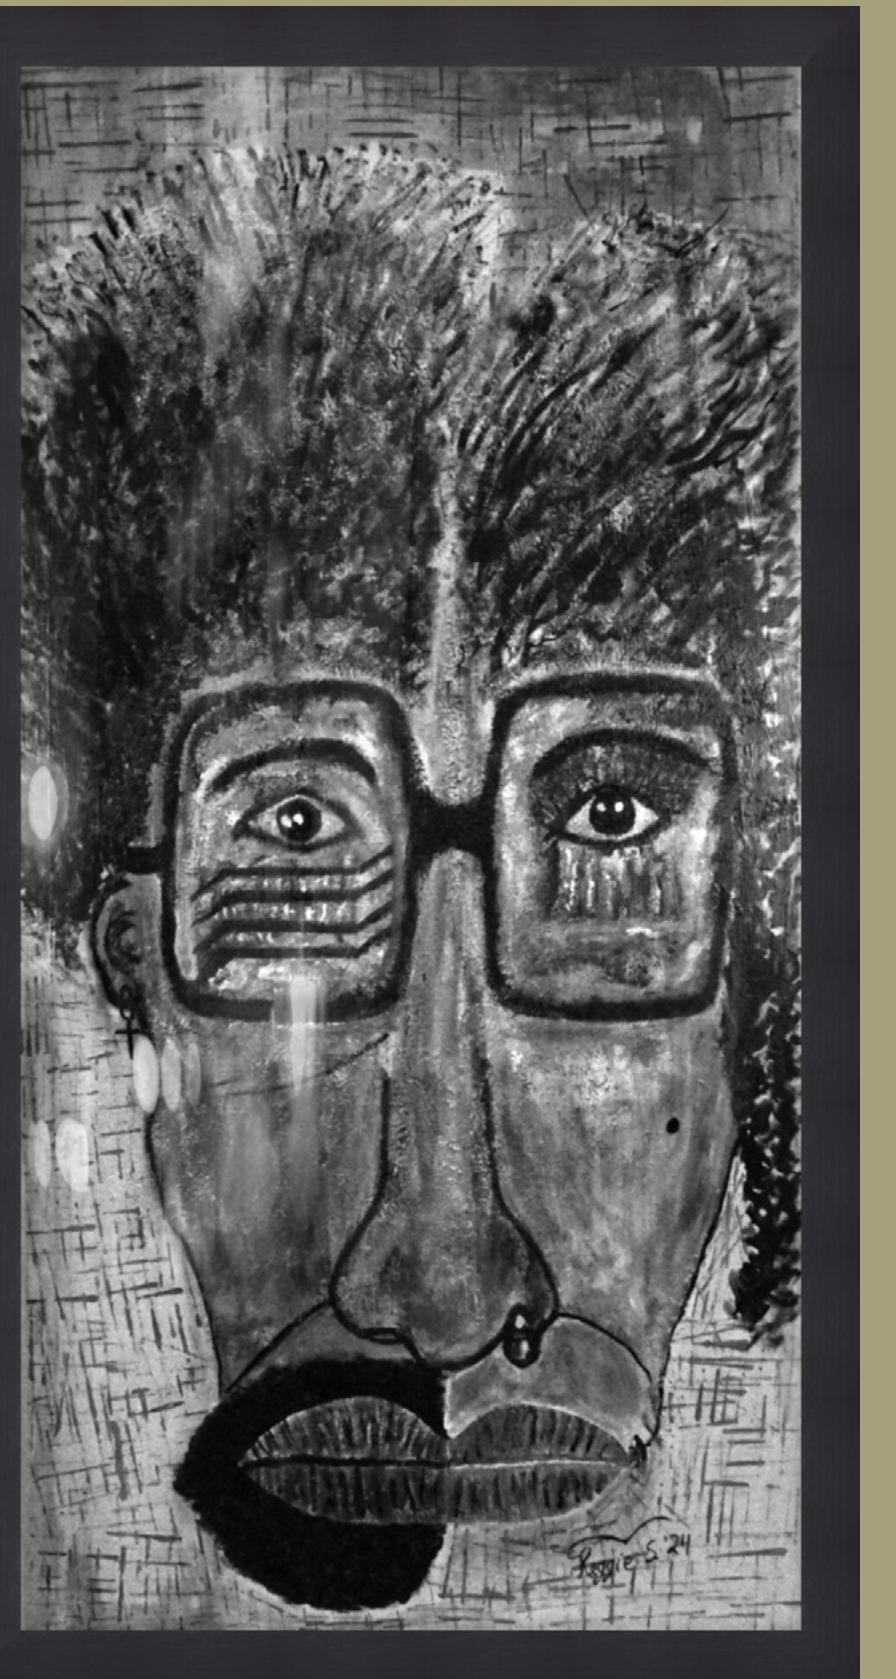

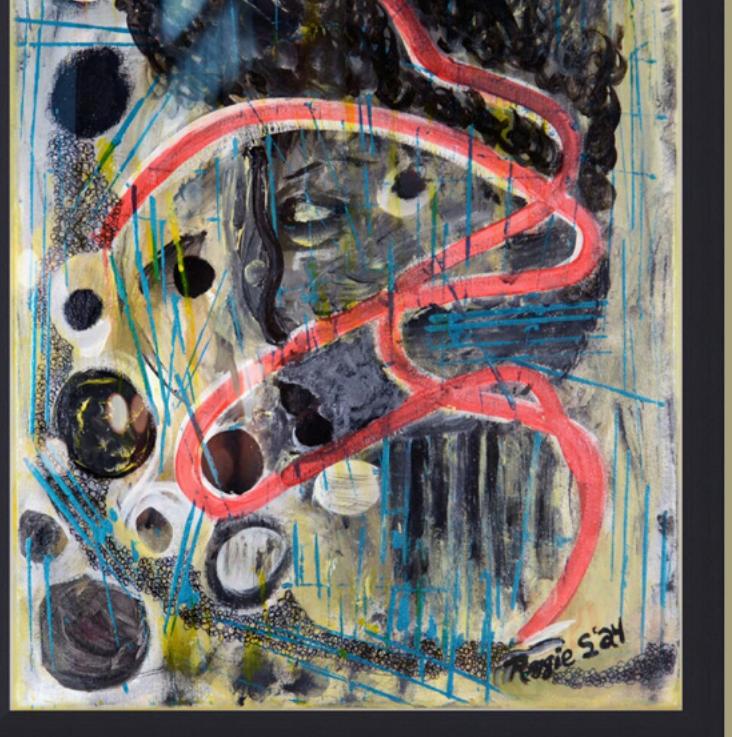

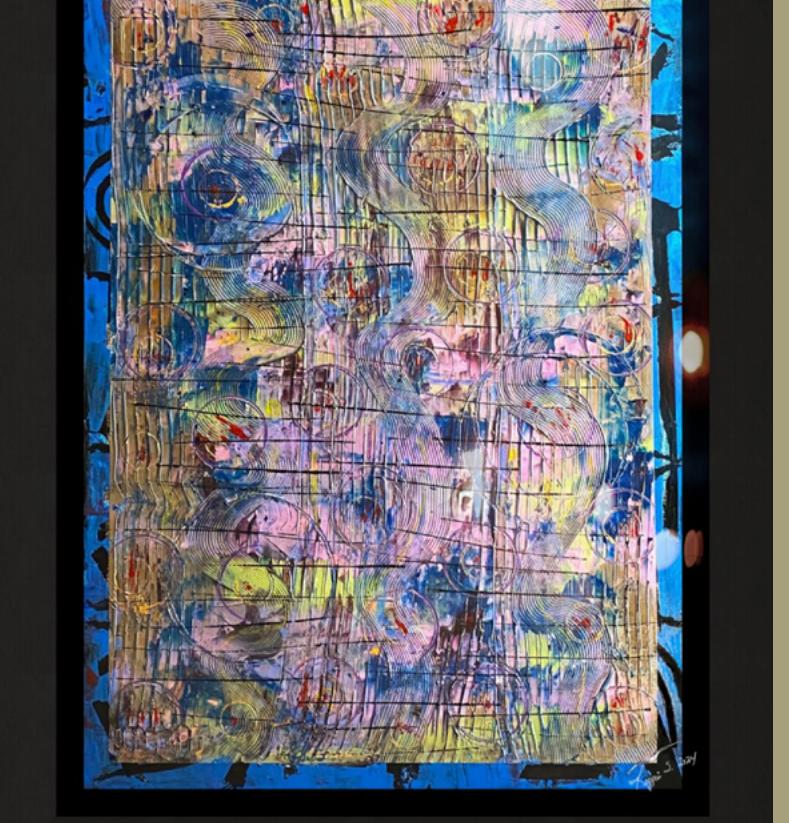

JAE DI

Inspired by Reggie's creative juices, her husband, known to his friends as "Jae Di" (pronounced J. D.) has been convinced to post some of the fruits of his lifelong love of Photography. Mostly drawn to shots of nature, Jae Di has started to expand into other areas of photography and is anxious to share the results with the world.
